MEMORANDUM FOR THE RECORD

SUBJECT: ELINT Training Committee

25X1 1. [] called me the afternoon of 26 January and asked for an OTR preliminary estimate of funds required to support the ELINT training program. I discussed the problem with []. He 25X1 felt that training seminars in Washington should be budgeted against the operating components concerned. He foresaw no FY 1960 requirements for funds for OTR travel incident to ELINT or major space alterations that would not be included in other budgets. He suggested we have 25X1 [] give us an estimate of over-all Agency ELINT training requirements in terms of the number of students and number of days TDY and PCS training, and if possible some idea of the location of the training. With this, OTR will provide an average cost figure which can be used for preliminary budget estimate purposes.

2. In discussing the concept of additional JOT slots, [] 25X1 suggested the operating components request the slots for themselves and the individuals be recruited, processed, and trained under the JOT Program in preparation for their specific ELINT assignment. []s 25X1 reason for this was to avoid cluttering up the JOT T/O with individuals whom later we would be told, we cannot transfer them to our organization until a slot is provided.

25X1 3. I called [] back at four o'clock and gave him the above information.
